

ABOVE AND BEYOND COMMUNITY CLASSES PRESENTS...

Music Appreciation

A Step Back into the 1970s

with **JASON BARON, M.S.**

class description: In this interactive Zoom class, students will share their love of music with a focus on the musical styles, bands and artists during the 1970's. The 1970s created a perfect musical bridge from the rebelliousness of the 1960s and the happy songs that are characteristic of the 1980s.

Activities include listening to songs, watching live performances and music videos, interviews, and popular press from that decade. Students will also be encouraged to relate various songs and genres from the 1970's to present day.
